

## Press release

Berga, April 2018

### thermowave: Dual leadership in new management board

In the course of the future-oriented reorganisation towards a more diverse management in the Guntner Group, the management board of the thermowave GmbH was restructured, too: As of April 3, Klaus-Dieter Kleinsteiber is responsible for field of Operation, while Udo Brünjes manages the field of Sales.

Udo Brünjes

Klaus-Dieter Kleinsteiber

#### Experienced works manager with pronounced structures

Klaus-Dieter Kleinsteiber has been responsible for the general business management from 2015 onwards. His technical know-how stemming from more than 20 years of experience in leadership positions in the automotive supply industry enabled him to improve the production site's performance considerably. With the new strategic orientation of thermowave, the focus on growth will be even stronger.

#### Sales professional with excellent technical know-how

With Udo Brünjes in the field of Sales, thermowave relies on an extremely versed sales professional from among the members of the sister company Guntner with more than 25 years of experience in the refrigeration and air conditioning industry. Within the Guntner Group, Mr Brünjes already held different leadership positions e. g. as Division Manager for basetec as well as Area Sales Manager for Guntner. With his international experience as Key Account Manager in the wholesale business, Mr Brünjes will direct the future focus of the company as a competent and customer-oriented partner.

#### Well prepared for the future

This dual leadership comprising the extensive experience of two experts will allow thermowave to follow through with their medium-term goal of consolidating and expanding their market share in the booming plate heat exchanger segment of the refrigeration and air conditioning market.

## About thermowave

thermowave GmbH is a leading manufacturer of plate heat exchangers configured according to customer specifications in a wide range of materials, frame designs and sizes. Its head office is in Berga halfway between Göttingen and Leipzig. The product portfolio covers everything from standard heat exchangers for HVAC applications to highly specialised apparatuses for industrial refrigeration, the food and beverages industry, the chemical and process industry, and the energy sector. All products are "Made in Germany" and are tested at an in-house test facility. This procedure was certified by the independent German Technical Inspection Authority TÜV. Over 25 years' experience and continuous development ensure the high-quality standard.

Like Güntner GmbH & Co KG, worldwide leading manufacturer of components for refrigeration and air condition, JAEGGI Hybridtechnologie AG and basetec products & solutions, thermowave also belongs to Güntner Group. As subsidiaries of A-HEAT Allied Heat Technology AG which is located in Vienna, these companies benefit from information and know-how transfer which give the group members the critical impulses from synergy effects.
